RITESH RAI CHAWLA

Java Microservice Technical Architect.

Professional Microservices & Cloud Solutions.

Full Stack/Back-end Java Application Development Expert.

Indian Institute of Technology B. Tech in Electronics Engineering.

PROFESSIONAL SUMMARY:

- Java Technical Architect with 17+ years of experience in Java applications development, 8+ years' experience in Enterprise architecture for Monolith and Microservice both, solution design, modernization, and technical leadership.
- Hands-on experience in coding and programming in **Java, J2EE, Microservices, Spring Boot, Spring, Hibernate, Kafka, Spring Cloud, AWS Cloud/Services, RESTful Services/APIs, Snowflake, MySQL, SQL Server.**
- Worked with various Product/Service based companies having roles and responsibilities of a **Java/Technical/Microservices Architect, Team/Tech Lead, Sr. Technical Manager, and Lead Backend/Full Stack Developer** with global Team Members.
- Proven experience in Requirements gathering**, functional and technical specification development, creation of High-Level Designs (HLDs) and Low-Level Designs (LLDs), developing API design and delivering Technical Specifications** for large-scale, enterprise-grade applications.

EXPERTISE SUMMARY:

Architecture & Modernization:

- Strong experience in designing and architecting microservices-based applications. Building from scratch or migrating from monoliths.
- Good Experience in designing scalable, reliable, and efficiently deployable microservice-based software products/platform.

Requirements & Documentation:

- Experienced in Requirement Gathering, developing the Functional as well as the Technical Specifications of APIs, designing the HLDs, and LLDs.
- Successfully delivered the system design documents for Microservice/Monolithic applications that are Large-Scale/Enterprise-Grade Software Products.

Leadership & Team Management:

- Strong leadership in managing cross-functional teams of 40+, driving Agile delivery, engineering innovation, and high-performance execution across global delivery models.

Technology Upgrades:

- Upgraded the Ephesoft Product from Java 8 to Java 11 as an individual contributor.
- Successfully migrated 2000+ JUnit test cases to support the Java 11 upgrade.

Domain Expertise:

- Delivered enterprise solutions across Banking, Insurance, Finance, Manufacturing, and Healthcare domains.

Technical Skills:

Programming & Development	Java 8/11/21, Microservices, Advanced Java (J2EE), Spring Framework, Spring Boot, Spring MVC, Spring Cloud, Hibernate, Multithreaded Applications, Kafka, AWS Services
Architecture & Design	Monolithic and Microservices-based Architecture, Application Migration, Technology Upgrades
API & Integration	RESTful Services / REST APIs, Apache Kafka
Cloud & Containerization	Spring Cloud, AWS Cloud, Docker, Kubernetes
Databases RDBMS/NOSQL	MySQL, MariaDB, SQL Server, Oracle DB, MongoDB
DevOps & CI/CD	Jenkins, Bitbucket, Git, Maven, CI/CD Pipelines
Testing & Automation	JUnit, SonarQube, Microservices Integration Testing
Data Engineering	Snowflake Cloud Database, DBT Tool, Triggers, Tasks, Dynamic Tables, Stored Procedures

PROFESSIONAL EXPERIENCE:

Coforge Limited | Technical Architect | Aug 2024 - Present

Client: Fiserv Global | Team size: 80 onshore and offshore members

- Architect end-to-end Java and microservices solutions for enterprise banking and financial services requirements.
- Design services and data solutions using Spring Boot, Hibernate, Kafka, AWS, Snowflake, DBT, Apache Spark, and Scala.
- Developed the Architecture for migration and transformation of data from on-premises data centers to the Snowflake cloud data platform.
- Collaborated with US and UK clients, product architects, and stakeholders on architecture decisions and Agile delivery.
- Perform data modeling, solution design, implementation, and resolution of critical production issues.
- Contribute as Java/Microservices Architect, lead full-stack developer, Snowflake developer, and technical lead within an 80-member delivery team.

SkillMine Technologies | Senior Technology Manager / Technical Architect | Jan 2024 - May 2024

Client: Government e-Marketplace, GeM v2.0 | Team size: 11

- Led architecture for transforming the GeM portal from a monolithic application into a microservices-based platform.
- Designed Java 21 and Spring Boot microservices using Spring Cloud, API Gateway, Kafka, MySQL, AWS, DynamoDB, EKS, and DocumentDB.
- Produced system architecture, functional and technical specifications, HLDs, LLDs, and CRUD API designs.
- Delivered reference implementations for Buyer and Buyer Registration microservices.
- Worked with client stakeholders, product architects, business teams, and the underlying development team.
- Contributed to reporting database design for the running GeM v1.0 platform in response to a critical production requirement.

R Systems International | Project Leader / Technical Architect | Mar 2020 - Jan 2024

Client: Kofax-Ephesoft | Team size: 30

- Led architecture and full-SDLC delivery for the Ephesoft intelligent document processing product.
- Designed and developed features using Java, J2EE, Spring MVC, Spring Boot, Hibernate, Kafka, REST APIs, and SQL/NoSQL databases.
- Upgraded the Ephesoft product from Java 8 to Java 11 as an individual contributor.
- Migrated 2,000+ JUnit test cases to support Java 11 compatibility.
- Upgraded the supporting platform from RHEL 7.5 to RHEL 8.4 as an individual contributor.
- Delivered HLDs, LLDs, features, and enhancements while working with US and UK clients through Agile, Scrum, JIRA, and Confluence.

SELECTED ACHIEVEMENTS:

1. Managed and mentored cross-functional teams of 40+ professionals across global delivery models.
2. Designed greenfield microservices and modernization approaches for migrations from monolithic architectures.
3. Delivered enterprise solutions across Banking, Finance, Insurance, Manufacturing, Healthcare, and Government domains.
4. Executed Java, Linux, testing, cloud-data, and application modernization initiatives across enterprise products.

EARLIER CAREER:

Trihund Solutions Pvt Ltd | External Consultant | Aug 2019 - Feb 2020

CXC Solutions | Principal Engineer II | Jun 2018 - Aug 2019

Fulcrum Worldwide Software Pvt Ltd | Team Lead Delivery | Oct 2017 - May 2018

ZDSB Support Pvt. Ltd. | Senior Full Stack Engineer | Sep 2016 - May 2017

Spring People Software Pvt Ltd | Senior Software Engineer | Jul 2015 - Mar 2016

Kellton Tech Solutions | Senior Software Engineer | Aug 2014 - Sep 2014

Wooqer Advertising Services Pvt Ltd | Platform Engineer | Jan 2012 - Jul 2012

Capgemini India Pvt Ltd | Consultant | Mar 2011 - Aug 2011

SKAN Dbydx Software Pvt Ltd | Software Developer | Oct 2009 - Feb 2010

Q3 Technologies | Senior Software Engineer | May 2008 - Sep 2008

BMC Software | Associate Software Consultant | Mar 2007 - Jul 2007

BHEL, Haridwar | Engineer, Software Developer | Sep 2002 - Mar 2007

EDUCATION:

B.Tech. in Electronics Engineering | Indian Institute of Technology (IIT-BHU)
